```java
1   /**
2    * Chop up a Social Security number, add up all the numeric pieces, and o
    utput the total.  12-12-12 would result in an output of 36
3    * This lab was designed to teach you more about the String class and how
     if statements are used
4    * @author Aryan Gupta
5    * @version 1.0, 10/14/2015
